

LLNLexer::lookahead

```
graph LR; A[LLNLexer::lookahead] --> B[LLNLexer::sync]; B --> C[LLNLexer::fill];
```

The diagram illustrates a sequence of three methods from the LLNLexer class. The first method, 'lookahead', is highlighted with a gray background. It is followed by 'sync' and then 'fill', both with white backgrounds. Arrows indicate the flow from left to right between the methods.

LLNLexer::sync

LLNLexer::fill
