

IParser::process

```
graph LR; A[IParser::process] --> B[IVisitor::visit]; B --> C[AST::children];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box labeled 'IParser::process'. A dark blue arrow points from this box to a white rectangular box labeled 'IVisitor::visit'. Another dark blue arrow points from the 'IVisitor::visit' box to a final white rectangular box labeled 'AST::children'. All boxes have a thin black border.
