

source/parser/btparser/btparser.h

```
graph TD; A[source/parser/btparser/btparser.h] --> B[exception]; A --> C[vector]; A --> D[iparser.h];
```

The diagram illustrates the dependencies of the file `source/parser/btparser/btparser.h`. It is represented as a root node in a gray box at the top. Three blue arrows point downwards from this root node to three separate white boxes below it, representing the files it depends on: `exception`, `vector`, and `iparser.h`.

exception
