

BTParser::sync

```
graph LR; A[BTParser::sync] --> B[BTParser::fill]; B --> C[ILexer::next];
```

The diagram illustrates a sequence of three operations in a flowchart. The first operation, 'BTParser::sync', is contained within a gray rectangular box. A dark blue arrow points from this box to the second operation, 'BTParser::fill', which is in a white rectangular box. Another dark blue arrow points from the second box to the third operation, 'ILexer::next', also in a white rectangular box. All boxes have a black border, and the arrows are solid dark blue lines with triangular heads.

BTParser::fill
